sults. Our rates are consist-
ent with circulation. Try us.

WEEKLY REPUBLICAN—1917
DAILY PUBLIC LEDGER—1918

MAYSVILLE, KENTUCKY, MONDAY, DECEMBER 11, 1916.

ONE COPY—ONE CENT.

REMOVAL SALE

Will Be Held By Melvina, Knox &
Diener Beginning Wednesday—
Great Reductions in All
Furniture.

On another page of this issue of the
Ledger will be found an advertisement
by Melvina, Knox & Diener Co. an-
nouncing a big removal sale by them
which will begin on Wednesday morn-
ing.

Several weeks ago this popular firm
rented a business house on East Sec-
ond street and since that time have
been very busy preparing to remove to
the same. Finding that they had a
large amount of stock on hand that
they could not conveniently store, they
decided to have a removal sale and
the results of this decision will be
shown on Wednesday morning when
the sale will open.

Furniture of all description will be
placed on sale on the morning of the
opening at greatly reduced prices.
One may judge for themselves the value
of this reduction by carefully read-
ing the advertisement as found and
after reading it they will see that
such bargains have never been offered
to Maysville people before. The store
of the company is closed today and
will be closed tomorrow in order to
allow the owners to mark down their
stock.

The idea of a removal sale at Christ-
mas time will appeal greatly to a
large number of persons hunting suit-
able Christmas presents. Certainly
presents for everyone can be found in
a furniture store and this will be a
great opportunity.

This sale is now being advertised
throughout this section of the coun-
try, large posters similar to the ad-
vertisement being used. The name
of the company insures the quality of
the furniture sold to be of the very
best and large crowds will undoubtedly
visit this business house to take ad-
vantage of the many bargains to be
found there.

LEDGER MAN COMMENDED

In the Employees' Magazine of the
C. & O. Railway this month will be
found the following item in the Safety
First Department of that splendid
monthly:

Franklin Slye, Maysville, Ky., on
October 11, discovered a lift chain off
a hopper bottom gondola in switch
point of the Hall Plow Company's
spur at Maysville, and being unable
to remove the chain, he phoned the
local office at Maysville. We wish to
commend Mr. Slye for the interest
taken in the Company's welfare and
the Safety First Movement.

YOU WILL ENJOY THE CHRIST-
MAS HOLIDAY TRIP MORE IF
YOUR CLOTHES ARE MADE PRE-
SENTABLE BY DRY CLEANING
AND PRESSING, PHONE 337, AND
C. F. McNAMARA WILL CALL FOR
THEM. DO IT NOW!

Mr. and Mrs. Charles Fichter of Chi-
cago, arrived Saturday night on a visit
with relatives in this city. They will
later visit relatives in Lewis county.

Mr. William Newell returned to his
home in Dayton, Ohio, yesterday after
attending the funeral of his brother,
Mr. S. J. Newell on Saturday.

FARMERS & TRADERS BANK

DEPOSIT YOUR TOBACCO CHECKS WITH THE FARMERS
& TRADERS BANK. 3 PER CENT INTEREST PAID ON TIME
DEPOSITS. OUR BANK IS THE HOME OF THE FARMER, AND
HE IS ALWAYS WELCOME, AT THE LITTLE BANK ON THE
CORNER WITH THE BIG BUSINESS.

OUR CHRISTMAS SAVINGS CLUB OPENS MONDAY, DE-
CEMBER 11.

C. L. WOOD, CASHIER.

NOTICE

As our old lease has expired and
new one does not begin yet, we are
temporarily out of business., but will be
glad to see our old patrons at our new
roomy location in the spring time—the
Daulton Livery Building.

Harbeson Garage

"Where are you going, my busy Maid?"
"A-Christmas shopping, sir," she said.
And then he said, "May I ask where?"
"To the Square Deal Man's, on Square
Deal Square."

---and believe me, she was smart, for not
only could she find there everything she
wanted for each member of the family,
old and young, but at the same time,
with each One Dollar cash purchase, she
got a ticket on the

Chevrolet Touring Car

---fully equipped with electric lights and
starter, valued at \$520.00, which will be
given away some time during August,
1917.

Follow the example, folks, of the
busy maid, and do your Christmas shop-
ping early at

Mike Brown's
"The Square Deal Man"

A Good Thing For Maysville

Our Christmas Money Club Record For 1916

Fifteen hundred members.

Total deposits and to be paid out over \$35,000.

Seventy thousand weekly deposits received.

Smallest single weekly deposit one cent.

Largest single weekly deposit \$2.50.

If paid in pennies it would take 3,500,000 pennies.

Those pennies would weigh 25,000 pounds, and if put side by
side would reach forty miles.

If paid in silver dollars they would weigh one ton.

If paid in one dollar bills they would reach over four and one
half miles if placed end to end.

The amount saved in 50 weeks would keep 65 families one year.
It would buy 600,000 loaves of bread.

It takes a well equipped bank to do these things, not to mention
investing in loans and investments that can be realized
on when desired, and paying out such a large sum of
money without any perceptible effort.

If this club benefits you and if you think it is a good thing for
Maysville, we will be glad to have you show your ap-
preciation by opening a bank account in either or both
of our commercial and savings departments.

BANK OF MAYSVILLE

"Safe For Savings"

BURNS FATAL

To Miss Margaret Toohey of Paris—
Gown Catches Fire From Open
Grate—Well Known Here.

Paris, Ky., December 10—Miss Mar-
garet Toohey, 22 years old, died at 10
o'clock Sunday morning from the ef-
fects of burns received about 7 o'clock
the same morning.

Miss Toohey resided with her par-
ents, Mr. and Mrs. James Toohey,
about three miles from Paris, on the
Hume & Bedford pike. She rose about
7 o'clock this morning to replenish a
grate fire, and as it did not burn
quickly enough she poured some coal
oil on it from a lamp. The blaze in-
stantly flared up and caught Miss
Toohey's night dress and kimono, en-
veloping her in flames.

Her screams brought her brother,
James Toohey, who was sleeping in
another room, and he found her on
the floor with her entire body burn-
ed. Dr. J. T. Brown was summoned
from town, but nothing could save
her. She was conscious and able to
talk with the members of the family,
telling them how the accident oc-
curred, and leaving messages for
many of her young friends, also giv-
ing directions about some business
matters.

Miss Toohey was employed at clerk
in Grosche's bakery, and was a very
attractive and popular young woman.
Miss Mary Brannon, of Lexington,
was a guest of Miss Toohey's at the
time of the accident.

Besides her parents, she is survived
by five brothers, John Toohey, George
Toohey, James Toohey, Thomas Too-
hey and Robert Toohey, and three sis-
ters, Misses Rosa Toohey and Eliza-
beth Toohey, all of this county, and
Mrs. John McCarthy, of Paris.

The funeral services will be con-
ducted Tuesday morning at 9 o'clock
at the Catholic Church, by the Rev.
Father Eugene DeBruyn, and the
burial will follow in the Catholic
cemetery. The pallbearers will be
Charles Neal, John Brophy, R. E.
Shea, George L. Doyle, Murray J. Hig-
gins and Joseph P. Gullfoyle.

Mrs. Toohey's brother, George
Flanagan, of Maysville, was thrown
from a buggy last September and re-
ceived injuries from which he died
about December 1, and Mrs. Toohey
had just returned from a visit to his
family.

CHEER UP! GET THE CHRIST-
MAS SPIRIT BY HAVING Mc-
NAMARA DRY CLEAN THAT FROCK
OR SUIT YOU WILL WEAR DURING
YULE-TIDE. PHONE 337. HE WILL
CALL.

The members of the Board of the
Woman's Club are requested to meet
at the Public Library this afternoon
at 2 o'clock, instead of 2:30, the regu-
lar hour. Arrangements will be made
for the Christmas meeting.

AUTO DITCHED

Mr. Mamon Foor and Mr. J. E. Mc-
Chord of this city had a narrow es-
cape from a possible serious injury
on last Friday when a machine in
which they were riding was ditched.
Mr. Foor was driving the machine and
was running at a rather rapid rate of
speed. In turning a curve the ma-
chine skidded and ran off the road-
way. The men were thrown out of
the auto and suffered several minor
bruises.

"The Home of QUALITY Clothes"

We are now ready with our Holiday
Goods---all fresh merchandise of dependable
quality. Here you can select practical and
useful gifts for men and boys.

We urge you to make an early selection
while the assortments are at their best and
variety big. Everything moderately priced.

D. Hechinger & Co.

HUNT'S SILK STOCKINGS

are distinguished from all others by extra length, comfortable flare tops, deep mercerized garter tops and fully reinforced
soles, heels and toes. White, black and colored silk of unusual quality, in plain weave or Richelieu ribbed. \$1, \$1.15, \$1.25,
\$1.50, \$2.00.

HANDKERCHIEFS THE GIFT UNIVERSAL FOR MEN

Who ever heard of a man exchanging handkerchiefs after Christmas? Nobody.
Every man likes handkerchiefs—particularly good ones; if they are nicely marked, so much the better. Splendid assort-
ment here.

Good qualities of Irish linen—full size—1-8 to 1 inch hem, 15c to 50c.
Union linen handkerchiefs, 5c and 10c.
Silk handkerchiefs, 50c and \$1.00.

BLOUSES JUST OUT OF THE BOXES

Delightfully new, these pretty affairs of luxuriant Silk and Lace, made with all possible grace. They transform a plain
"tailor made" and make it quite festive enough for the Christmas dinner.
Silk Blouses \$2.50 to \$6.00. Georgette Blouses \$5.00 to \$8.50.

NOVELTY JEWELRY

At 25c and 50c brooches and small bar pins, so pretty they at once suggest gifts.

THE DAILY PUBLIC LEDGER

Published Daily Except Sunday, Fourth of July, Thanksgiving and Christmas by the Ledger Publishing Company, Maysville, Kentucky.

Local and Long Distance Telephone No. 40. Office—Public Ledger Building. Entered at the Maysville, Kentucky, Postoffice as Second-class Mail Matter.

Y. M. C. A. ON THE BORDER

People who contribute to the support of the Young Men's Christian Association will be interested in the report that the organization is now operating forty-one large frame buildings in twenty-two camps of troops on the Mexican border. There are, in addition, six large tents and a traveling equipment consisting of an automobile truck, which is used to transport supplies to the isolated outposts in the Big Bend district of Texas.

Work is also carried on in hospitals, with troops, on practice marches, at target ranges and visits are made regularly to the camps of patrol detachments. At intervals of five or six weeks, an expedition by motor truck carries Y. M. C. A. supplies to the men of General Pershing's command in Mexico. The work is in charge of 10 secretaries, one at San Antonio and the other at El Paso. The general headquarters are in New York.

About 130,000 national guardsmen and regular troops are served and the most of maintaining the work is \$1,500 a day. Up to December 1st, 90 tons of writing paper and 80 tons of magazines had been distributed. Each center has a circulating library. Every building has a folding organ and many have pianos. Fifty phonographs are in use and thirty motion picture machines in operation. An average of 60,000 letters a day are written and mailed in the association buildings.

There are lectures, concerts and entertainments in the evening. A regular educational program is being carried out, the courses including mathematics, English, Spanish and other branches. Gospel meetings and Bible classes are held regularly and are well attended. The buildings are headquarters for the social life of the camps and are visited by thousands of men daily.—Lexington Leader.

Everything has been taken into consideration by the Commissioners (Mexican) except the fact that Mexican lawlessness shows no disposition to settle down and there is nobody down there strong enough to settle it.—N. Y. Evening Sun.

The editor of the leading Greek organ at Athens has been arrested by the allies. As he had over 8,000 drachms on his person when arrested, maybe he was jailed because the allies needed the cash.—Commercial Tribune.

MILLION DOLLARS TAKES THAT MUCH A DAY TO PAY CANDY BILL OF UNITED STATES

A million dollars is a sum of money which few are able to appreciate, and we think of it in a vague sort of way as connected with Rockefeller, Carnegie and men of corporate interests of that class. Yet all around us millions of dollars are spent daily, and in such a way that the most men pass without noticing. It is not generally known that it costs a million a day to pay the candy bill of the American Nation.

It costs a million a day to run the moving picture shows.

It costs a million a day to keep up the automobile industry.

It costs a million a day to run the schools.

It costs a million a day to pay the tea, coffee and cocoa accounts.

It costs three million a day to pay the liquor liquor accounts.

It costs seven millions a day to run the steam railroads.

It costs three millions a day to keep the government going.

It costs a million a day to pay interest on deposits in the savings banks.

It costs a million a day to run the churches and the missionary organizations.

It costs fifteen millions a day to run the farms.

It costs a million a day to support the doctors and lawyers.

It costs nearly a million a day to keep the army and navy in time of peace.

It costs half a million a day to meet the pensions of soldiers' and sailors' widows.

It costs a million a day to pay the interest on railroad bonds.

It costs nearly a million a day to take care of the failures and bankruptcies.

It costs six millions a day to pay for the exports from the United States and four and a half millions a day to pay for the imports.

WHY IS THE SKY BLUE?

Sunlight, which we call white, is composed of light rays of different colors—red, orange, yellow, green, blue, indigo and violet. It can be broken up into its constituent colors in various ways. If it passes thru a transparent prism (like the crystals that hang from a chandelier) or if it falls on a surface which has almost invisible minute irregularities (like mother of pearl or the wing of a butterfly) we see the rays into which sunlight has been separated. These phenomena are observed when light is not absorbed, says Popular Science Monthly.

Hold a piece of red glass in front of flame and we see only red. Rays of all other colors have been absorbed. The natural colors of the objects we see about us, leaves, flowers, books and chairs, depend upon absorption. A green leaf throws back chiefly green rays; the rest are absorbed. So, the natural color of everything in nature is the unabsorbed residue from full white light. There is no such thing as color by itself.

A swarm of minute particles, scattered in the path of white light, will break it up, like the surface of mother of pearl. If the particles happen to be of just the right size and the spaces between them just the right distance, they will absorb rays of one color only and throw off the rest. The atmosphere is filled with countless dust particles, and their size and spacing is such that they scatter rays which we call sky blue. Nearer the horizon, larger particles turn the blue into white; this happens above a dusty town and when mists or clouds hang above us. All that is left of white sunlight, after passing thru many miles of blue, scattered air, appears in the hues of sunset. The size and spacing of dust particles as well as the angle at which sunlight strikes them determines the color of the sky.

ROCKS ABSORB WATER

The amount of water held in the rocks or other materials composing the earth varies greatly, owing to many causes. The amount absorbed depends on the porosity of the material, the abundance of joint cracks, fissures, and cavities. The amount of water in drift or surface materials is dependent to some extent on the nature of the underlying rock, and the amount which finds its way into the soil rocks is dependent on the thickness of the overlying surface deposits. The amount of water contained in the earth's crust (to a depth of 2 miles) has been estimated by different writers with widely different results. A recent estimate is given by Fuller, of the United States Geological Survey, Department of the Interior, who concludes that the total amount of free water in the earth's crust would be equivalent to a uniform sheet over the entire surface of the earth having a depth of about 100 feet. This is but a small fraction of the estimate made by other writers.

A man with a well balanced mind doesn't have to part his hair in the middle.

(I WISH YOU'D STOP FLIRTING WITH THAT BALL PLAYER, HE'S NOT SUCH A WONDER—WHY WHEN I PLAYED BALL I USED TO COVER A LOT MORE GROUND IN THE OUTFIELD THAN HE DOES!)

BUT THIS IS HOW HE DID IT

H 198

"THE BOYS OF SIXTY-ONE"

(Knoxville Journal-Tribune)

The million of men who stood at the forefront in the stirring scenes of 1861-5, who are yet in the land of the living are yet in the habit of speaking of each other as "the boys." When marching and fighting and doing that which puts to the fullest test manly fortitude, that is what they were, boys, and they will never forget those trying times.

The Omaha World-Herald, in a recent issue, gave some statistics showing that the vast majority of those who served in the Union army were but boys. Those who enlisted when 18 years of age, or under that, numbered over a million. Those who were 21 years old, or under that numbered more than two million. Those who enlisted who were 22 years or over, numbered but 618,511. Those 25 years old and upward numbered but 46,626.

What is said of enlistments in the Union ranks will doubtless apply to those who fought in the Confederate armies. A large number of them, a majority doubtless, were below the age of 21 when they entered the service under the Stars and Bars.

Wonder is sometimes expressed that so many of these "boys of 61" still survive. But a boy who was as young at the age of 20 is now but 75, and many men live to that age. That so many of the veterans who yet fondly address each other as "boys" is due to the fact that when they rallied to the colors, they were mere boys.

But most of those yet living have been here the full three score and ten years, the allotted time given to human life, and are living as the saying goes, "on borrowed time." Every day and every hour in the day some one of them hears "taps" sounded, and the time is near at hand when the muster-out will come to the last one of the one-time millions.

STARCH BATHS FOR FATIGUE

(London Cor. New York Times)

Starch baths are the latest "cure," having been introduced here from Paris. A society woman who is recommending her friends to try this latest idea describes the manner in which the baths should be taken. She says:

"All you have to do is to buy a pound of ordinary pure starch from your grocery. Then dissolve the starch in a saucupful of hot water and pour the solution into a well-filled bath of water at a temperature of 95 to 99 degrees, but not exceeding blood heat. Then to take the cure lie down flat in the bath—with all but the face and hair immersed—and remain there for at least 20 minutes. No more hot water must be added, or the beneficial effect will be considerably marred. Paris is raving over the stimulating effects of such baths, which impart to the flesh a feeling as though one had bathed in rich cream. A starch bath is restful and soothing to the nerves and leaves a delightful sense of exhilaration for several hours afterward. If you feel limp or washed out the starch bath will make up your condition as the laundress does the crumpled shirt. The bath is best taken before breakfast or before dressing for dinner."

A London doctor said that he quite believed that starch would have a soothing effect upon the skin—just as powder had. He added that there probably would be some danger of catching cold if a full half hour were spent in water of such reduced temperature.

What robbers we are when he take away from our children their natural democracy.

McADOO AND HOUSTON TO REMAIN IN CABINET—ATTORNEY GENERAL IS SILENT

Washington, December 8.—In spite of reiterated reports to the contrary, officials close to President Wilson insisted tonight that neither Secretary McAdoo nor Secretary Houston will retire from the Cabinet.

According to the census reports, 263,315 girl stenographers and typewriters are employed in the United States.

IT'S SURPRISING

That So Many Maysville People Fail To Recognize Kidney Weakness.

Are you a bad back victim? Suffer twinges; headaches, dizzy spells?

Go to bed tired—get up tired? It's surprising how few suspect the kidneys.

It's surprising how few know what to do. Kidney trouble needs kidney treatment.

Doan's Kidney Pills are for the kidneys only.

Have convinced Maysville people of their merit.

Here's a Maysville case; Maysville testimony.

Kidney sufferers hereabouts should read it.

Mrs. John Burns, Maysville, says: "I was subject to severe spells of backache and other symptoms of kidney trouble. They came on every three or six months and at times I was confined to bed and almost helpless. Doan's Kidney Pills gave me quick benefit. When I have had slight return attacks of backache, Doan's Kidney Pills have never failed to quickly check the trouble."

OVER SEVEN YEARS LATER. Mrs. Burns said: "The statement I gave before praising Doan's Kidney Pills still holds good."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Burns has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

Next to money, sentiment most keeps happy families from breaking up.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

AMERICAN INDIANS NO LONGER ARE VANISHING RACE, COMMISSIONER SELLS REPORTS

Washington, December 8.—The American Indians no longer are a vanishing race, but under improved health conditions are increasing in numbers, according to the annual report today by Commissioner Sells, of the Indian Bureau.

There were 209,224 Indians when the report was written, an increase of 1,522 over a year ago. Health and educational campaigns, the report says, reduced the general death rate this year from 35.55 in 1,000 to 23.33, an end down the number of infant deaths from 2,391 two years ago to 1,303 this year. Deaths from tuberculosis were reduced 40 per cent.

For determining the character of the bottoms of inland waterways sounding leads containing microphones have been invented, mud bottoms producing dull noises on vessels using the devices and stony bottoms a series of taps.

LABOR LEADERS

Draw Rail Bill for Congress—President Wilson's Legislative Program is Halted Pending Proposed Substitute—Federation Ready to Make Fight.

Washington, December 8.—Congressional action on President Wilson's railway legislation program probably will await the results of determined efforts of labor leaders to draft a substitute for all forms of compulsory arbitration a plan for dealing with strikes, actual and threatened, which will be agreeable to their followers, employees and the administration.

The determination of the President to undertake making impossible by law such a situation as he faced last September in the railroad dispute, has aroused all branches of labor to the greatest activity. The unofficial alliance between the American Federation of Labor and the four railway brotherhoods arranged recently at Baltimore for the purpose among other things of opposing "dangerous" legislation, is bearing its first fruit in conference between representatives of both organizations for the purpose of drafting a plan that will shelve all compulsory arbitration bills.

Slow on Program
Congressional leaders, aware of this activity, are inclined to go slowly on the President's program, pending announcement of labor proposals, provided, of course, they are revealed during the present session of Congress. A delay even of sixty days, a House leader said today, would still leave Congress time to take any action it might deem necessary.

If a scheme satisfactory to the workers is drafted, it is understood, it then will be submitted to representatives of the railroads and other employees and to the President. Approval of it probably would mean that Congress, at least, would eliminate the compulsory arbitration feature from any legislation enacted.

Plans approved by the President for the introduction of his railway program in Congress, contemplated no new bills. All of the proposals, it was agreed today between Senate leaders and Representative Adamson, chairman of the House Commerce Committee, will be offered as amendments to a House bill now before the Senate. This measure would provide for an additional number of the Interstate Commerce Commission members and amendment of it to meet the various features of the President's program. This would be comparatively simple in comparison with introducing several separate measures.

No Need For Haste
Under this amendment arrangement there is no need for urgent haste in either House, the leaders think. The Senate Commerce Committee will continue to hear testimony of the railway situation generally the House Committee which framed the Adamson Act for the present will not touch the railway situation in so far as it concerns the President's program and in the meantime labor leaders, employees and the President can be carrying on their negotiations.

If no substitute plan can be agreed upon, the Congressional machinery will be ready for rushing the President's program in what ever form he may desire, to a speedy vote. If it should include a compulsory arbitration feature, organized labor is expected to make the fight of its life against it.

EASTERN BATTLE FRONT NOW 1,000 MILES LONG

London, December 8.—The defeat of the Roumanians lengthens the eastern war front to 1,000 miles.

British military critics believe that the Roumanians will take their stand alongside of the Russians, and that the new battle line in the east will stretch from the Baltic to the Black Sea.

All the way across Roumania from the Transylvania Alps to the Danube, the flight of the Roumanian army continues, Berlin reports.

Earlier in the day in a supplemental statement the Berlin War Office announced the capture of 8,000 prisoners and twenty-six guns by the German allies and that south of Predehl and Altschanz passes Russo-Roumanian armies were trapped.

It was reported today that the Kaiser, Emperor Charles and King Ferdinand of Bulgaria may meet in Bucharest for a conference. A similar meeting between the Kaiser and King Ferdinand was held at Nish, capital of Serbia, when that city fell into the hands of the German allies.

The seat of Serbian government was moved from Belgrade to Nish when von Mackensen's army captured the former city.

An attempt by the French to recapture trenches won by the Germans on Hill No. 304, Verdun front, was repulsed, the Berlin War Office reported today.

Renewed attacks by the allies in Macedonia have all been repulsed says the Bulgarian War Office today.

Reuter dispatch from Amsterdam today quotes the German Socialist newspaper Vowarta as saying that, despite the victory in Roumania, Germany still desires peace.

"The victory in Roumania is a victory of defense and does not open the prospect of dividing the world among us and our allies," says this paper. "Our enemies may suffer still greater defeats, but will remain strong and can still, without appearing ridiculous, say that, although beaten, they are not conquered. They recognize defeat, but believe they must eventually be victorious."

A CURE FOR BRONCHITIS

We Have Been Selling in Maysville for Many Years a Remedy We Guarantee.

Please read the following letter and we promise if you buy a bottle of Vinol form us and are the least bit dissatisfied, we will cheerfully return your money.

Woodstock, Ill. "I suffered from bronchitis, had a very bad cough and an pain in my chest, was weak and tired all the time. It seemed almost impossible for me to go on with my work. I tried different remedies without benefit, also cough medicines, but my druggist recommended Vinol, and it gave me almost instant relief. Its continued use cured my bronchitis and built me up so that I feel like a different man." Charles Botta.

The reason that cough syrups fail in such cases is because they are palliative only, while Vinol removes the cause, being a constitutional remedy in which are combined beef and cod liver peptones, iron and manganese peptones and glycerophosphates. It strengthens and revitalizes the entire system and assists nature to expel the disease. Our faith in Vinol is shown in the above offer John C. Pecor Drug Co., Maysville. Also at leading drug in all Kentucky towns.

Saxol Salve
REMOVES SKIN AFFECTIONS
One package proves it. Sold and guaranteed by above Vinol druggist.

RADIUM WORTH MILLION

IS MADE FOR \$340,000

Washington, December 8.—Radium worth more than a million dollars at market prices has been produced by the Federal Bureau of Mines at a cost of \$340,000. It is announced tonight in the bureau's annual report.

The radium was produced under an arrangement with the National Radium Institute, a philanthropic institution organized to study the curative properties of radium. Most of it will go to two of the country's largest hospitals.

Tobacco! Tobacco! Tobacco! Everybody Interested

Not only in the price at which it is selling but where the most satisfactory sales are being made.

Maysville with her BIG REDRYERS, and FACTORIES FROM ALL OVER THE WORLD being represented, it is but natural that the high price will be paid here.

And with present GOOD PRICES, our advice would be, bring in a load as soon as ready, not wait to get a big crop on the floor at one time, in this way you get an average of the market whatever it happens to be.

We are sending home more satisfied customers, for the amount of Tobacco offered than at any time since we have been in the business.

E—Barites F—Fluorapatite G—Pyrites H—Manganese

Military Unpreparedness of the United States

The War College has fixed the military safety line for the United States as shown by the map, saying: "As a general military principle, no supply depot, arsenal or manufacturing plant of any considerable size supported by war department appropriations for military purposes, should be established or maintained east of the Appalachian mountains, west of the Cascade or Sierra Nevada mountains, nor within 200 miles of our Canadian or Mexican borders, and steps should be taken gradually to do away with any depots and manufacturing plants already established in violation of this military principle." It is a startling fact that practically all the government military stations are at present located outside these safety lines. The government plant for extracting nitrogen from the air at Muscle Shoals will be located well within the safety zone. Here the \$20,000,000 appropriated by Congress may develop 600,000 horse power from water power, now being wasted, to be used in extracting nitrogen from the air for gunpowder and fertilizers. This country then will not have to rely upon nitrates imported from Chile. In addition to this power plant, the only obstacle will be removed to navigation 750 miles on the Tennessee river, opening up a region of vast undeveloped resources.

with the Old Guard of either party. We are willing to co-operate in every way with the liberal element of either party.

"We stand ready to help President Wilson at all times and in all ways in his fight to liberalize the Democratic party, and we stand ready to help Hiram Johnson, of California, at all times and in all ways, in his fight to liberalize the Republican party."

"Sooner or later the liberal elements of all parties and of all sections, North and South, East and West, will unite to form a really coherent and a really national liberal party—perhaps under one of the old party standards, perhaps under a new standard—and will complete the work begun so splendidly by Woodrow Wilson and Hiram Johnson."

"We Progressives must be ready to devote our lives to this work. We must see clearly that success cannot come through compromise or through barter, but that success can come through unflinching loyalty to Progressive principles and through un-

daunted courage in fighting those who oppose these principles."

SHACKELTON TO SAIL DECEMBER 16 FOR ARCTICS TO RESCUE COMRADES

London, December 8.—Sir Ernest Shackleton will sail from Dunedin, New Zealand, for Ross Sea on December 16 to rescue the members of his Antarctic expedition marooned there, according to a Reuter's dispatch from Wellington.

The explorer will take his auxiliary ship, the Aurora. The ten men whose rescue Sir Ernest will attempt are Captain Mackintosh and nine members of the crew of the Aurora who were marooned in the neighborhood of the Ross Barrier when the ship broke away in a blizzard twenty-one months ago. They had only a scanty supply of provisions at that time and nothing has been heard from them since.

The largest hen eggs are produced in Manchuria, those weighing one-sixth of a pound being common.

Washington, December 8.—It is learned upon the highest authority that Walter Hines Page has tendered his resignation as United States Ambassador to England. From the same high source it is learned that the resignation of Ambassador Page has been in the hands of President Wilson for several days.

The information let it be clearly understood there is no political significance whatever in the resignation of the Ambassador. His action, it is stated, is merely the result of a desire to be relieved of the extremely arduous duties and responsibilities of his official position.

Since the outbreak of the European war Mr. Page has been burdened with ever-increasing tasks, which began at the start of hostilities, when he was called upon to arrange for the return home of thousands of American travelers—many of them stranded without funds in England and other belligerent countries.

An American has obtained a Cuban patent for a machine that cultivates growing sugar cane, work that heretofore has had to be done by hand.

Sailors in the British navy now utilize their spare time in making munitions, for which they receive no remuneration.

Washington, December 8.—The special Naval Board, appointed by Secretary Daniels to consider military aspects of proposed sites for the \$11,000,000 Government armor plant, has submitted a report on which final choice of a site will be based.

It summarizes the arguments of more than 125 cities seeking the award, and, without attempting actually to designate of localities where the best protection of the factory would be afforded in time of war.

Although the report has not been made public, it was learned today that there is little if any possibility that the plant will be located in any of the coastal states or in close proximity of the Canadian border. Some point in the middle western area, having good connection with the mineral supply sources and transportation of facilities to coast points, but sufficiently remote to remove danger of destruction by any hostile invading force, is virtually certain to be selected.

Representative W. J. Fields called on the officials of the Navy Department today to insist that Ashland, Ky., is the best location in the United States for the armor plate plant which the Government is to build.

Why not try a Ledger Want Ad?

Washington, December 8.—Jose Bovio, an Italian merchant of Chihuahua City, who arrived last night with his daughter, Francisco Bovio, claimed to have seen and talked with Francisco Villa when Villa went to the Bovio home to ask him to notify all foreign merchants to meet with Villa and arrange a forced loan.

"Villa came to my home," Bovio said today, "and asked us our nationality. The other foreigners present said they were German subjects. Villa turned to me and said: 'You are no German.' 'I told him I was an Italian. He then asked me to go and tell all of the foreign merchants to meet him at his temporary headquarters to arrange for a forced loan.'"

Villa said he intended to kill only Americans and Chinese, Bovio said.

In Sorfu sheets of paper pass for money; one sheet buys one quar of rice, or twenty sheets a piece of hemp cloth.

The comparative mortality of different occupations shows that clergy and farm laborers have the lowest death rate.

We can't all get rich quickly. In fact, most of us can't even get rich slowly.

Washington, December 8.—Employers in this city were notified today that more than 30,000 members of the Amalgamated Clothing Workers of America had empowered the officials of the union to call a strike if the workers do not receive the eight-hour day. The vote was completed last night. Some time ago the union served an ultimatum upon the American Clothing Manufacturers' Association and its subcontractors, demanding an increase of \$2 a week in wages and a reduction in working hours. The wage increase, aggregating over \$2,500,000 a year, was granted, but no action was taken on the question of hours.

Joseph Schlossberg, General Secretary of the organization, said today that "the indications are that a general strike is probable," unless the demands are granted, with a result that work would be suspended on contracts calling for delivery of hundreds of thousands of uniforms and overcoats for use this winter by troops of the entente allies. These contracts included, he said, one let yesterday by the Canadian Government for 400,000 uniforms, and if a strike came it might affect workers in Montreal and Toronto.

The Strike Committee expects to hear definitely from the manufacturers tomorrow night, he said, and if unfavorable, the employees probably would take action by the following Saturday.

There is considerable activity among the Greek military authorities. A Reuter dispatch from Athens says:

"The Venizelist prisoners today were transferred from the Parliament House, where they had been detained to the Averoff prison. They were led through Stadium street tied in front followed by a cheering crowd."

New York, Chicago, San Francisco

Some From "WHERE ARE MY CHILDREN?" at the Washington Theater Thursday, Dec. 14th

Washington, December 8.—It is learned upon the highest authority that Walter Hines Page has tendered his resignation as United States Ambassador to England. From the same high source it is learned that the resignation of Ambassador Page has been in the hands of President Wilson for several days.

The information let it be clearly understood there is no political significance whatever in the resignation of the Ambassador. His action, it is stated, is merely the result of a desire to be relieved of the extremely arduous duties and responsibilities of his official position.

Since the outbreak of the European war Mr. Page has been burdened with ever-increasing tasks, which began at the start of hostilities, when he was called upon to arrange for the return home of thousands of American travelers—many of them stranded without funds in England and other belligerent countries.

An American has obtained a Cuban patent for a machine that cultivates growing sugar cane, work that heretofore has had to be done by hand.

Sailors in the British navy now utilize their spare time in making munitions, for which they receive no remuneration.

Washington, December 8.—The special Naval Board, appointed by Secretary Daniels to consider military aspects of proposed sites for the \$11,000,000 Government armor plant, has submitted a report on which final choice of a site will be based.

It summarizes the arguments of more than 125 cities seeking the award, and, without attempting actually to designate of localities where the best protection of the factory would be afforded in time of war.

Although the report has not been made public, it was learned today that there is little if any possibility that the plant will be located in any of the coastal states or in close proximity of the Canadian border. Some point in the middle western area, having good connection with the mineral supply sources and transportation of facilities to coast points, but sufficiently remote to remove danger of destruction by any hostile invading force, is virtually certain to be selected.

Representative W. J. Fields called on the officials of the Navy Department today to insist that Ashland, Ky., is the best location in the United States for the armor plate plant which the Government is to build.

Why not try a Ledger Want Ad?

Washington, December 8.—Jose Bovio, an Italian merchant of Chihuahua City, who arrived last night with his daughter, Francisco Bovio, claimed to have seen and talked with Francisco Villa when Villa went to the Bovio home to ask him to notify all foreign merchants to meet with Villa and arrange a forced loan.

"Villa came to my home," Bovio said today, "and asked us our nationality. The other foreigners present said they were German subjects. Villa turned to me and said: 'You are no German.' 'I told him I was an Italian. He then asked me to go and tell all of the foreign merchants to meet him at his temporary headquarters to arrange for a forced loan.'"

Villa said he intended to kill only Americans and Chinese, Bovio said.

In Sorfu sheets of paper pass for money; one sheet buys one quar of rice, or twenty sheets a piece of hemp cloth.

The comparative mortality of different occupations shows that clergy and farm laborers have the lowest death rate.

We can't all get rich quickly. In fact, most of us can't even get rich slowly.

Washington, December 8.—Employers in this city were notified today that more than 30,000 members of the Amalgamated Clothing Workers of America had empowered the officials of the union to call a strike if the workers do not receive the eight-hour day. The vote was completed last night. Some time ago the union served an ultimatum upon the American Clothing Manufacturers' Association and its subcontractors, demanding an increase of \$2 a week in wages and a reduction in working hours. The wage increase, aggregating over \$2,500,000 a year, was granted, but no action was taken on the question of hours.

Joseph Schlossberg, General Secretary of the organization, said today that "the indications are that a general strike is probable," unless the demands are granted, with a result that work would be suspended on contracts calling for delivery of hundreds of thousands of uniforms and overcoats for use this winter by troops of the entente allies. These contracts included, he said, one let yesterday by the Canadian Government for 400,000 uniforms, and if a strike came it might affect workers in Montreal and Toronto.

The Strike Committee expects to hear definitely from the manufacturers tomorrow night, he said, and if unfavorable, the employees probably would take action by the following Saturday.

There is considerable activity among the Greek military authorities. A Reuter dispatch from Athens says:

"The Venizelist prisoners today were transferred from the Parliament House, where they had been detained to the Averoff prison. They were led through Stadium street tied in front followed by a cheering crowd."

OVERSIGHT MAY ACQUIT LANE

The following appeared in Saturday's Enquirer:

Common Pleas Judge Cushing yesterday continued the trial of William Lane, charged with second-degree murder, until Monday.

Lane, it is charged, shot and killed Joseph Sorrell at Front and Main streets September 3 last. At the same time, it is charged, he accidentally shot his friend, John Glenn. Lane has been on trial for several days. Attorneys William Coffin and Eli Falkenstein defending him, while Assistant County Prosecutor H. C. Barnes represents the state.

When the prosecution rested it was ascertained, by an oversight, proof had not been offered the man killed was Joseph Sorrell or that the killing occurred in this county and state, as charged in the indictment.

Attorney Coffin filed a motion for an instructed verdict of acquittal, while Assistant Prosecutor Barnes filed a motion to reopen the prosecution to permit him to call a witness to prove the allegations of venue and corpus delicti needed.

Judge Cushing has authority to permit the reopening of the prosecution, but he took the case under advisement until Monday.

Lane hails from Maysville and only a few days before the shooting had been a roustabout one of the steamers plying from Cincinnati up the river.

CHARITY BALL

The committee in charge of the arrangements for the Annual Charity Ball, announces that this most prominent social function will be given on Thursday evening, December 28th, from 9 to 3 in the Masonic Temple and will be under the auspices of Maysville Commandry No. 10 Knights Templar. This year's entertainment promises to excel if not surpass those of former years to attendance owing to the large number of our young people who will return for the holidays together with the many visitors who will be in the city at this time. Esberger Orchestra of Cincinnati, considered by many to be the very best in this section will furnish the music. This will be a most attractive feature.

10 ABOVE WARNING FOR TOMORROW

Whew! A telegram received from Washington gave warning of a cold wave which will force the temperature down to within ten degrees of the zero mark within the next forty-eight hours. The wave is coming from the northwest.

People who think it has been cold for the past few days should consider that the temperature has been hovering around thirty degrees above zero since Friday night.

And now comes the news of ten degrees above zero.

Whew!

RIVER NEWS

The gauge marks 9.6 this morning and rising.

The Greenland will pass down from Pomeroy today for Cincinnati.

The Chilo will leave Cincinnati tonight at 5 o'clock for Manchester.

Prepare yourself for a healthy, happy Xmas; bathe and clean your stomach, liver and bowels; make them fresh and active; able to do their full duty—then you'll be well and happy—Hollister's Rocky Mountain Tea does the work Nature's way. Tea or Tablets, 35c. J. Jas. Wood & Son.

The Parent-Teacher Association of the High School building will hold a called meeting this afternoon at 3 o'clock. Business of importance. All members requested to be present.

MRS. J. B. ROSS, President

Word has been received here that a fine son has been born to Mr. and Mrs. Henry Neal Marsh of East St. Louis, Ill. Mr. Marsh is the son of Mrs. Mary Marsh of Forest avenue.

SEVERELY INJURED

Mr. Speed G. Hibler, popular conductor on the Paris-Maysville division of the L. & N. Railway, was severely injured this morning. Mr. Hibler was coming from his home on East Third street to make his regular run, when he slipped and fell down a flight of stairs. He was severely bruised and wrenched but his injuries will not prove serious. As far as could be learned at press time there were no bones broken. The stairs at the time Mr. Hibler fell were very dark and in addition were extremely steep, making the descent rather hazardous. Mr. Hibler's many friends hope that his injuries will not confine him for any length of time.

WILL OPERATE WHOLESALE BUSINESS

Messrs. Arn, managers of the Maysville Tea, Coffee and Spice Co., will begin this week on their wholesale department. They have contracted to have large amounts of coffee delivered them and will roast and pack coffee for the various retail houses in this section of the country. They will not carry on their house to house canvass but will retail from the store on East Second street. These prominent young men have been very successful in their business thus far and we hope that they will continue to do so.

WILL GIVE PROCEEDS TO MISSION

The managers of the Princess Rink have announced that on next Monday, December 18, they will give the proceeds of the day to the Christmas Fund of the City Mission. This is a very worthy cause and many will doubtless be present that day to aid the fund. This fund each year is the means of bringing Christmas cheer to a great number of the poor of the city and under the efficient management of Mrs. Cora Peddicord, Superintendent of the Mission, it goes to the places where it is most needed.

SOME SCOOP

We note in this morning's Independent that Col. John N. Green of Lexington is the proud father of a nine and a half pound boy, Mr. Green claiming the distinction of being the oldest father. This had happened so long ago that we had forgotten Col. Green and his son, the same article having been printed in the Ledger on November 7. Verily, history doth repeat itself.

HAVE PURCHASED VICTROLA

The Board of Directors of the City Mission have purchased a Victrola for use in the Mission Home with the various organizations within the Home. All persons in the city that have any records which they do not care for are asked to donate them to the mission. The directors of the Mission feel that they will be able to get quite a number of records donated.

STILL REMAINS VERY ILL

Mr. George Chambers, whose illness was noted in Saturday's Ledger, still remains very ill at his home on East Second street. Reports from his bedside are to the effect that he spent a rather restless night, although he is somewhat improved this morning. His many friends hope for his speedy recovery.

J. C. EVERETT & CO OPENING

This well known and progressive firm will formerly open their new quarters on East Second street today. In celebration of their removal, they will sell 200 barrels of flour at \$8 per barrel—one barrel to a customer.

Mr. Phillips Barbour of New York City, arrived Saturday night for a visit with his parents, Dr. and Mrs. John Barbour of Market street.

Mr. Arthur Pope of Forest avenue left Saturday night for Hurricane, W. Va., to accept a position with the R. J. Reynolds Tobacco Co.

Mrs. Phoebe Price of Elizaville, and Miss Julia Phillips of Cincinnati, were the guests of Mrs. Frank Breeze from Friday until Sunday.

MARRIAGES

Vonberg-Culver

Mr. Charles Culver, 24, of Covington and Miss Blanche Vonberg, 23, of Ludlow, Ky., were married in this city Saturday by Rev. John Barbour.

Carpenter-Bell

Mr. John S. Bell, 46, and Miss Mary E. Carpenter, 31, both of Flemingsburg, were married in this city Saturday by Squire Fred W. Bauer.

COUNTY COURT

In the Mason County Court Saturday on motion of the widow of A. J. McDougle, James E. Thirkield qualified as administrator with C. D. McDougle as surety.

The sale bill of W. H. Harrison, deceased, was produced in court and filed and ordered to be recorded.

Ordered that A. K. Marshall be appointed administrator of Charles T. Marshall, deceased, and he qualified as such with C. T. Owens as surety.

Ordered that the sale bill of the personal estate of Daniel Daly be filed and recorded.

Ordered that the Equipable Trust Co., be appointed administrator, de bonis non, of L. Vastelle, deceased, with its capital stock as surety.

BRYANT WASHBURN TODAY

"The Prince of Graustark" a sequel to Essanay's famous picture "Graustark" is the special attraction at the Pastime today, afternoon and night. Bryant Washburn and Marguerite Clayton are featured in this wonderful photoplay.

MASONIC MEETING

Stated meeting Maysville Lodge No. 52 F. & A. M. Monday evening 7 o'clock. All members requested to attend. Visiting brethren cordially invited.

A. M. CLARK, Master.
P. G. Smoot, Secretary.

THE PRINCE OF GRAUSTARK

Featuring Bryant Washburn and Marguerite Clayton is the special attraction at the Pastime today. A Sequel of Essanay's famous picture "Graustark."

If you're going to have good health, feel well, enjoy winter, you've got to keep your bowels regular. Winter's indoor life, heavy foods, clogs them up. Hollister's Rocky Mountain Tea cleans them out, and does it quick. It's to make you well and keep you well. 35c. Tea or Tablets.

DEFEATED AUGUSTA

The Maysville basket ball team journeyed to Augusta on Friday night and defeated the team at that place by a score of 33 to 16. Everett starred for the local team, he getting nine goals for a total of 18 points. The team reported that the Augusta bunch could certainly play basket ball, and that though they expected to beat them, they thought that the score would be much smaller. Augusta has one of the best teams in this section of the state but Maysville leads as was shown.

Mr. John Marshall of the county left Saturday night for a short trip to Winston-Salem, N. C.
